

Alhena

Shelter composed of a supporting structure in steel tube, a back wall composed of a frame in steel profiles with two tempered glass sheets and a cover in shaped steel sheet, with edge in powder coated extruded aluminum. One side of the supporting structure is covered with curved metal sheets that create an elliptical profile: in the lower part it is equipped with a litter bin with bag holder ring and a door with lock, while, in the upper part, it can accommodate a panel for advertising posters. On the opposite side, an aluminum information panel with snap lock is integrated. The glass sheets can be equipped with holes for the installation of an additional aluminum display board with snap closure. The shelter can be completed with a steel bench without backrest, whose seat is decorated with holes.

Variant code: 0102734

Size and weight: Width 3640mm
Length 1600mm
Height 2710mm

Materials: Steel treated with protective coating and powder coating

Finishes: Polyester powder coated steel in wrinkled finish

Color:
to be chosen from Metalco standard colour range

Fixing: Pre-drilled for anchors

Accessories: Illuminazione "totem" centrale. Formato foglio: 500 x 700 mm

Technical drawing:

POWDER COATED STEEL - POWDER COATED ALUMINUM

For every steel product and component, we choose the most suitable raw materials and treatments based on our production cycle and the needs of each design.

Our steel treatments include hot-dip galvanization, cold galvanizing, Sendzimir galvanization, cataphoresis and primer coating.

For our aluminum products and components, we use aluminum in sheet or in extrusion or in casting.

Then we powder coat steel, stainless steel, and aluminum with polyester powder, in accordance with EN ISO 12944-2.

We offer a wide range of standard RAL colors with wrinkled finish with different levels of texture. Only when customization through stickers, pad printing or serigraphy is provided, for technical reasons, their finish will be smooth matte or smooth glossy, depending on the technical feasibility.

We also offer the exclusive SABLÈ' colours, with a peculiar metallic wrinkled texture.

Upon request, different treatments and customizations are available, such as powder coating with non-standard RAL colors, and/or with smooth matte and smooth glossy finishes, and/or anti-graffiti treatment.

If required, the powder coating process can be certified Quality Steel.
