

Bull Panca

Bench with backrest composed of two supports in stainless steel plate with armrests covered in hardwood and a seat in hardwood.

Variant code: 0012140o

Size and weight: Width 2000mm
Length 559mm
Height 765mm
Weight 80kg
Seat Height 420mm

Materials: stainless steel + hardwood + stainless steel

Finishes: Hardwood with water-based pigmented impregnation

Brushed stainless steel

Color:
NO

Finishes:

Fixing: Pre-drilled for anchors

Technical drawing:

STAINLESS STEEL

For our stainless steel products and components, we normally use AISI 304 or 304L stainless steel, but in case of installation in highly aggressive conditions we recommend requesting AISI 316 stainless steel.

Our stainless steel is usually brushed or shotblasted, depending on the technical features of the product.

Electropolishing treatment is also available, upon request.

BRUSHED

SHOTBLASTED

WOOD

We use different types of wood for our products, including hardwood, thermotreated pine wood* or Okumè wood.

The hardwood is provided with a water-based pigmented impregnation treatment.

Upon request, hardwood can be left natural/untreated.

Pine wood* undergoes heat treatment, which allows to obtain a material with a longer life cycle, greater resistance to weathering and decay, greater solidity and dimensional stability.

On request, it can be supplied with a water-based pigmented impregnation treatment.

Okumè wood products are always supplied with a water-based varnish.

Thermotreated pine and hardwood can be supplied with FSC certificate on request.

*Thermo-treated pine wood has knots of varying sizes.
