

Bund 2s

Rectangular litter bin consisting of a supporting structure in galvanized and polyester powder-coated sheet steel, closed at the rear by a fixed panel in galvanized and polyester powder-coated sheet steel and at the front by two doors in galvanized and polyester powder-coated steel sheet equipped with a snap lock with triangular key. The structure has a rain cover, two polyester powder-coated stainless steel conveyors for the separate insertion of waste and two removable bag holder rings in steel rod.

Variant code: mces00018

Size and weight: Width 705mm
Length 400mm
Height 1000mm
Weight 85kg
Capacity 2x80 lt

Materials: Steel treated with protective coating and powder coating

Finishes: Polyester powder coated steel in smooth finish

Color:
to be chosen from Metalco standard colour range

Fixing: Pre-drilled for anchors or Below ground installation

Technical drawing:

Ground fixings

POWDER COATED STEEL - POWDER COATED ALUMINUM

For every steel product and component, we choose the most suitable raw materials and treatments based on our production cycle and the needs of each design.

Our steel treatments include hot-dip galvanization, cold galvanizing, Sendzimir galvanization, cataphoresis and primer coating.

For our aluminum products and components, we use aluminum in sheet or in extrusion or in casting.

Then we powder coat steel, stainless steel, and aluminum with polyester powder, in accordance with EN ISO 12944-2.

We offer a wide range of standard RAL colors with wrinkled finish with different levels of texture. Only when customization through stickers, pad printing or serigraphy is provided, for technical reasons, their finish will be smooth matte or smooth glossy, depending on the technical feasibility.

We also offer the exclusive SABLÈ' colours, with a peculiar metallic wrinkled texture.

Upon request, different treatments and customizations are available, such as powder coating with non-standard RAL colors, and/or with smooth matte and smooth glossy finishes, and/or anti-graffiti treatment.

If required, the powder coating process can be certified Quality Steel.

RAL

SABLÈ

The mentioned RAL and SABLÈ colours should be considered only illustrative.
