

Bailo Wpc

Smartbeam

Bench with backrest consisting of two 7 mm thick powder coated steel supports, a perimeter frame and a seat area in WPC Plus section 165x20 mm. The central slat of the seat is in extruded aluminium and is equipped with a 48 W solar panel, integrated 20 Ah batteries, two induction chargers (fast charging) and LED lighting.

Variant code: mpan00001

Size and weight: Width 640mm
Length 1920mm
Height 805mm
Weight 60kg
Seat Height 440mm

Materials: Polyester powder coated steel treated against corrosion*

Polyester powder coated aluminum

WPC Ultra (Wood Polymer Composite)

Finishes: Cast aluminum + WPC Ultra

Color:
to be chosen from Metalco standard colour range

Fixing: Installation with threaded bars

Technical drawing:

POWDER COATED STEEL - POWDER COATED ALUMINUM

For every steel product and component, we choose the most suitable raw materials and treatments based on our production cycle and the needs of each design.

Our steel treatments include hot-dip galvanization, cold galvanizing, Sendzimir galvanization, cataphoresis and primer coating.

For our aluminum products and components, we use aluminum in sheet or in extrusion or in casting.

Then we powder coat steel, stainless steel, and aluminum with polyester powder, in accordance with EN ISO 12944-2.

We offer a wide range of standard RAL colors with wrinkled finish with different levels of texture. Only when customization through stickers, pad printing or serigraphy is provided, for technical reasons, their finish will be smooth matte or smooth glossy, depending on the technical feasibility.

We also offer the exclusive SABLÈ' colours, with a peculiar metallic wrinkled texture.

Upon request, different treatments and customizations are available, such as powder coating with non-standard RAL colors, and/or with smooth matte and smooth glossy finishes, and/or anti-graffiti treatment.

If required, the powder coating process can be certified Quality Steel.

RAL

SABLÈ

The mentioned RAL and SABLÈ colours should be considered only illustrative.

WPC (WOOD POLYMER COMPOSITE)

We selected two different types of WPC (Wood Polymer Composite) for our products, ULTRA and PLUS. They do not have to be considered as alternatives, because the choice depends on the technical features of each design.

WPC PLUS

WPC ULTRA
