## CORTEN STEEL

---

Corten steel is a "living" material, changeable over time, not uniform in appearance and each product has unique shades and colors.

We sandblast our products in Corten steel, before proceeding with the oxidation process, designed to limit water consumption.

To reduce physiological leak of oxide, upon request, antiwashout treatment is available.

In particularly saline environments, Corten steel may have a different reaction, we recommend evaluating the positioning.

---

OXIDIZED

OXIDIZED PROTECTED WITH ANTIWASHOUT
