

Palus

Pedestrian bollard made entirely of cast aluminium. Ground fixing is either through concreting in the internal steel post, fixed sideways to the assembly with stainless steel anti-theft screws. With base plate.

Variant code: 0212264

Size and weight: Height 950mm
Weight 6kg
Diameter 150mm

Materials: Polyester powder coated aluminium

Finishes: Polyester powder coated aluminium in wrinkled finish

Color:
to be chosen from Metalco standard colour range

Fixing: Pre-drilled for anchors or Below ground installation

Technical drawing:

POWDER COATED STEEL - POWDER COATED ALUMINUM

For every steel product and component, we choose the most suitable raw materials and treatments based on our production cycle and the needs of each design.

Our steel treatments include hot-dip galvanization, cold galvanizing, Sendzimir galvanization, cataphoresis and primer coating.

For our aluminum products and components, we use aluminum in sheet or in extrusion or in casting.

Then we powder coat steel, stainless steel, and aluminum with polyester powder, in accordance with EN ISO 12944-2.

We offer a wide range of standard RAL colors with wrinkled finish with different levels of texture. Only when customization through stickers, pad printing or serigraphy is provided, for technical reasons, their finish will be smooth matte or smooth glossy, depending on the technical feasibility.

We also offer the exclusive SABLÈ' colours, with a peculiar metallic wrinkled texture.

Upon request, different treatments and customizations are available, such as powder coating with non-standard RAL colors, and/or with smooth matte and smooth glossy finishes, and/or anti-graffiti treatment.

If required, the powder coating process can be certified Quality Steel.

RAL

SABLÈ

The mentioned RAL and SABLÈ colours should be considered only illustrative.
