

# Top

Litter bin composed of structure in powder coated aluminum with one bin in powder coated steel and aluminum, equipped with an opening door for the insertion of waste and snap lock. The litter bin is equipped with cover, without ashtray. The structure is equipped with a bag holder ring with elastic and vertical support.

---

**Variant code:** 0026544

---

**Size and weight:** Width 450mm  
Length 345mm  
Height 1100mm  
Weight 26kg  
Capacity 35lt

---

**Materials:** Steel treated with protective coating and powder coating  
+ Polyester powder coated aluminum

---

---

**Finishes:** Door: Polyester powder coated steel in smooth finish  
+ Polyester powder coated aluminum in wrinkled finish

Polyester powder coated steel in wrinkled finish

Color: to be chosen from Metalco standard colour range

---

**Fixing:** Pre-drilled for anchors

Technical drawing:

Ground fixings

## POWDER COATED STEEL - POWDER COATED ALUMINUM

For every steel product and component, we choose the most suitable raw materials and treatments based on our production cycle and the needs of each design.

Our steel treatments include hot-dip galvanization, cold galvanizing, Sendzimir galvanization, cataphoresis and primer coating.

For our aluminum products and components, we use aluminum in sheet or in extrusion or in casting.

Then we powder coat steel, stainless steel, and aluminum with polyester powder, in accordance with EN ISO 12944-2.

We offer a wide range of standard RAL colors with wrinkled finish with different levels of texture. Only when customization through stickers, pad printing or serigraphy is provided, for technical reasons, their finish will be smooth matte or smooth glossy, depending on the technical feasibility.

We also offer the exclusive SABLÈ' colours, with a peculiar metallic wrinkled texture.

Upon request, different treatments and customizations are available, such as powder coating with non-standard RAL colors, and/or with smooth matte and smooth glossy finishes, and/or anti-graffiti treatment.

If required, the powder coating process can be certified Quality Steel.

### RAL

### SABLÈ
