

Ponte A

Bridge-shaped bench, without backrest, composed of two supports in powder coated aluminum with rounded corners and seat in powder coated steel.

Variant code: 0073354

Size and weight: Width 530mm
Length 2015mm
Weight 43kg
Seat Height 460mm

Materials: Powder coated steel

Steel treated with protective coating and powder coating

Finishes: Polyester powder coated aluminum in wrinkled finish

Color:
to be chosen from Metalco standard colour range

Fixing: Freestanding with pedestals or Installation with threaded bars

Accessories: Kit piedini da appoggio

Technical drawing:

POWDER COATED STEEL - POWDER COATED ALUMINUM

For every steel product and component, we choose the most suitable raw materials and treatments based on our production cycle and the needs of each design.

Our steel treatments include hot-dip galvanization, cold galvanizing, Sendzimir galvanization, cataphoresis and primer coating.

For our aluminum products and components, we use aluminum in sheet or in extrusion or in casting.

Then we powder coat steel, stainless steel, and aluminum with polyester powder, in accordance with EN ISO 12944-2.

We offer a wide range of standard RAL colors with wrinkled finish with different levels of texture. Only when customization through stickers, pad printing or serigraphy is provided, for technical reasons, their finish will be smooth matte or smooth glossy, depending on the technical feasibility.

We also offer the exclusive SABLÈ' colours, with a peculiar metallic wrinkled texture.

Upon request, different treatments and customizations are available, such as powder coating with non-standard RAL colors, and/or with smooth matte and smooth glossy finishes, and/or anti-graffiti treatment.

If required, the powder coating process can be certified Quality Steel.

RAL

SABLÈ

The mentioned RAL and SABLÈ colours should be considered only illustrative.
