

Nort

Modular two-module canopy, consisting of galvanized and polyester powder-coated tubular steel load-bearing columns with sheet metal base plate, a galvanized and polyester powder-coated tubular steel frame and a back wall made of laminated glass sheets. The upper part of the canopy is composed of a gutter in galvanized sheet metal and painted with polyester powder to collect rainwater and convey it inside the columns, thanks to the inclination of the roof in laminated glass sheets fixed by means of supports and aesthetic closing profiles in galvanized sheet metal and polyester powder coated with rubber gaskets.

Variant code: 0105214

Size and weight: Width 2480mm
Length 1588mm
Height 2378mm
Wheelbase 1200mm

Materials: Steel treated with protective coating and powder coating
+
Hardwood

Finishes: Polyester powder coated steel in wrinkled finish
+
Hardwood with water-based pigmented impregnation

Color:
to be chosen from Metalco standard colour range

Finishes:

Fixing: Plate with anchors

Technical drawing:

POWDER COATED STEEL - POWDER COATED ALUMINUM

For every steel product and component, we choose the most suitable raw materials and treatments based on our production cycle and the needs of each design.

Our steel treatments include hot-dip galvanization, cold galvanizing, Sendzimir galvanization, cataphoresis and primer coating.

For our aluminum products and components, we use aluminum in sheet or in extrusion or in casting.

Then we powder coat steel, stainless steel, and aluminum with polyester powder, in accordance with EN ISO 12944-2.

We offer a wide range of standard RAL colors with wrinkled finish with different levels of texture. Only when customization through stickers, pad printing or serigraphy is provided, for technical reasons, their finish will be smooth matte or smooth glossy, depending on the technical feasibility.

We also offer the exclusive SABLÈ' colours, with a peculiar metallic wrinkled texture.

Upon request, different treatments and customizations are available, such as powder coating with non-standard RAL colors, and/or with smooth matte and smooth glossy finishes, and/or anti-graffiti treatment.

If required, the powder coating process can be certified Quality Steel.

RAL

SABLÈ

The mentioned RAL and SABLÈ colours should be considered only illustrative.
