

Libre 2.0

Bench with backrest and armrests in powder coated steel rod, equipped with reinforcements and two supports.

Variant code: 0073444

Size and weight: Width 610mm
Length 1750mm
Height 795mm
Weight 55kg
Seat Height 432mm

Materials: Polyester powder coated steel treated against corrosion*

Finishes: Polyester powder coated steel in wrinkled finish

Color:
to be chosen from Metalco standard colour range

Fixing: Freestanding with pedestals or Installation with threaded bars

Accessories: Kit fissaggio piedini con tassello (4 pz) per panca LIBRE 2,0 L= 1800, Kit fissaggio piedini con tirafondo (4 pz) per panca LIBRE 2,0 L= 1800

POWDER COATED STEEL - POWDER COATED ALUMINUM

For every steel product and component, we choose the most suitable raw materials and treatments based on our production cycle and the needs of each design.

Our steel treatments include hot-dip galvanization, cold galvanizing, Sendzimir galvanization, cataphoresis and primer coating.

For our aluminum products and components, we use aluminum in sheet or in extrusion or in casting.

Then we powder coat steel, stainless steel, and aluminum with polyester powder, in accordance with EN ISO 12944-2.

We offer a wide range of standard RAL colors with wrinkled finish with different levels of texture. Only when customization through stickers, pad printing or serigraphy is provided, for technical reasons, their finish will be smooth matte or smooth glossy, depending on the technical feasibility.

We also offer the exclusive SABLÈ' colours, with a peculiar metallic wrinkled texture.

Upon request, different treatments and customizations are available, such as powder coating with non-standard RAL colors, and/or with smooth matte and smooth glossy finishes, and/or anti-graffiti treatment.

If required, the powder coating process can be certified Quality Steel.
