

Land L

Square tree grille with a circular hole made of laser-decorated steel sheet, with ground-inspired pattern. It is composed of two halves arranged for fixing each other with screws and equipped with stainless steel plate reinforcements, placed internally and on the perimeter. It can be accessorized with counter-frame.

STAINLESS STEEL

For our stainless steel products and components, we normally use AISI 304 or 304L stainless steel, but in case of installation in highly aggressive conditions we recommend requesting AISI 316 stainless steel.

Our stainless steel is usually brushed or shotblasted, depending on the technical features of the product.

Electropolishing treatment is also available, upon request.

BRUSHED

SHOTBLASTED
