

# Soave 100

---

Litter bin, equipped with a sloping top cover. The galvanized and polyester powder-coated supporting structure is made of steel sheet with tubular steel and is equipped with two doors in galvanized steel and painted with polyester powders, one of which can be opened in which there is a tray in sendzimir steel sheet painted with polyester powders and a bag holder in sendzimir steel sheet painted with polyester powders with elastic to hold the bag in position. The opening door is characterized by a slight inclined bend and can be customized with stickers or laser lettering with contrasting sheet metal. The bin is equipped with a self-supporting base in sandblasted concrete concrete.

---

**Variant code:** 0026654

---

**Size and weight:** Width 375mm  
Length 525mm  
Height 1115mm  
Weight 115kg  
Capacity 100lt

---

**Materials:** Steel treated with protective coating and powder coating

---

**Finishes:** Polyester powder coated steel in wrinkled finish

Color:  
to be chosen from Metalco standard colour range

---

**Fixing:** Freestanding, pre-drilled for anchors

# POWDER COATED STEEL - POWDER COATED ALUMINUM

For every steel product and component, we choose the most suitable raw materials and treatments based on our production cycle and the needs of each design.

Our steel treatments include hot-dip galvanization, cold galvanizing, Sendzimir galvanization, cataphoresis and primer coating.

For our aluminum products and components, we use aluminum in sheet or in extrusion or in casting.

Then we powder coat steel, stainless steel, and aluminum with polyester powder, in accordance with EN ISO 12944-2.

We offer a wide range of standard RAL colors with wrinkled finish with different levels of texture. Only when customization through stickers, pad printing or serigraphy is provided, for technical reasons, their finish will be smooth matte or smooth glossy, depending on the technical feasibility.

We also offer the exclusive SABLÈ' colours, with a peculiar metallic wrinkled texture.

Upon request, different treatments and customizations are available, such as powder coating with non-standard RAL colors, and/or with smooth matte and smooth glossy finishes, and/or anti-graffiti treatment.

If required, the powder coating process can be certified Quality Steel.

## RAL

## SABLÈ

The mentioned RAL and SABLÈ colours should be considered only illustrative.
