

Inside C

Rectangular bike rack with rounded corners, made of Corten steel plate with a stainless steel tubular support to be cemented.

Variant code: 0031075

Fixing: Below ground installation

Size and weight:
Width 350mm
Length 100mm
Height 958mm
Weight 15kg

Materials: Corten steel

Technical drawing:

CORTEN STEEL

Corten steel is a "living" material, changeable over time, not uniform in appearance and each product has unique shades and colors.

We sandblast our products in Corten steel, before proceeding with the oxidation process, designed to limit water consumption.

To reduce physiological leak of oxide, upon request, antiwashout treatment is available.

In particularly saline environments, Corten steel may have a different reaction, we recommend evaluating the positioning.

OXIDIZED

OXIDIZED PROTECTED WITH ANTIWASHOUT
