

# Ermes B

Cylindrical basket in galvanized steel and polyester powder coated with fixed lid and flap opening with snap lock. The container is equipped with an internal bag holder ring. The bin is fixed to the ground by means of a galvanised tubular steel support and polyester powder-coated with base plate.

---

**Variant code:** 0022704

---

**Size and weight:** Height 1034mm  
Weight 30kg  
Diameter 372mm  
Capacity 55lt

---

**Materials:** Steel treated with protective coating and powder coating

---

**Finishes:** Polyester powder coated steel in wrinkled finish

Color:  
to be chosen from Metalco standard colour range

---

**Fixing:** Pre-drilled for anchor

Technical drawing:

Ground fixings

# POWDER COATED STEEL - POWDER COATED ALUMINUM

For every steel product and component, we choose the most suitable raw materials and treatments based on our production cycle and the needs of each design.

Our steel treatments include hot-dip galvanization, cold galvanizing, Sendzimir galvanization, cataphoresis and primer coating.

For our aluminum products and components, we use aluminum in sheet or in extrusion or in casting.

Then we powder coat steel, stainless steel, and aluminum with polyester powder, in accordance with EN ISO 12944-2.

We offer a wide range of standard RAL colors with wrinkled finish with different levels of texture. Only when customization through stickers, pad printing or serigraphy is provided, for technical reasons, their finish will be smooth matte or smooth glossy, depending on the technical feasibility.

We also offer the exclusive SABLÈ' colours, with a peculiar metallic wrinkled texture.

Upon request, different treatments and customizations are available, such as powder coating with non-standard RAL colors, and/or with smooth matte and smooth glossy finishes, and/or anti-graffiti treatment.

If required, the powder coating process can be certified Quality Steel.

## RAL

## SABLÈ

The mentioned RAL and SABLÈ colours should be considered only illustrative.
